EXAMINER'S COMMENTS

Response to Amendments

1. In view of the amendments filed 3/17/2005, the objections to the claims are hereby withdrawn.

Response to Arguments

2. Applicant's arguments filed 3/17/2005 have been fully considered and are persuasive.

Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance: the prior art could not alone or in combination anticipate or make obvious an article made from layers of web in which a first layer is a gas-permeable microbial barrier and a second layer is a gas-impermeable layer, the layers having side seals and lateral lines of weakness such that, when detached, one end of the bag is openable.

The most pertinent prior art, WEISS ET AL, discloses bags made from three, not two, layers in order to make the bag stronger, and does not disclose lines of weakness in the web. OTSU ET AL discloses filled bags made from a web and lines of weakness to separate filled, sealed bags, rather than a bag with one end openable.

Art Unit: 3721

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
